Hunger and Nutrition Commitment Index Africa (HANCI-Africa) - 2019

Key data for South Africa

HANCI-Africa compares 45 African countries for their performance on 22 indicators of political commitment to reduce hunger and undernutrition. Country scores are calculated in relation to the political commitment of the other countries in the index.

**Strong Performance**

- The Government of South Africa has ensured tenure security for rural populations. Land titling is common and land markets function well. Policy promotes equitable access to common property resources.
- Relative to other HANCI countries, South Africa’s medium/long term national development policy (National Development Plan 2030. Our future-make it work) assigns strong importance to nutrition.
- South Africa instituted a separate budget line for nutrition, enabling transparency and accountability for spending.
- The National Nutrition Policy/Strategy identifies time bound nutrition targets and a multisectoral and multistakeholder policy coordination mechanism has been set up.
- Policymakers in South Africa benefit from regular nutrition surveys that are statistically representative at national level. The last survey was published in 2016.
- The Government has fully enshrined the International Code of Marketing of Breastmilk Substitutes into domestic law.
- The Government of South Africa promotes complementary feeding practices.
- 95.5% of the population of South Africa in 2017 has access to an improved drinking water source.
- In South Africa 94% of women aged 15-49 were visited at least once during pregnancy by skilled health personnel in 2016.
- In South Africa, constitutional protection of the right to food and the right to social security is strong.

**Areas for improvement**

- Spending on agriculture (1.2% of public spending in 2018), does not meet government commitments set out in the African Union’s Maputo Declaration (10% of public spending).
- South Africa’s spending in its health sector (13.3% of public spending in 2017) is close to, yet not fully meeting government commitments set out in the African Union’s Abuja Declaration (15% of public spending).
- In South Africa, the law gives women and men equal economic rights and equal legal access to agricultural land. However, these laws are not effectively enforced and discriminatory practices against women continue, increasing their vulnerability to hunger and undernutrition.
- The Government of South Africa has achieved two high doses of vitamin A supplementation for only 50% of children in 2018.

**Existing rates of:**

- Wasting: 2.5%
- Stunting: 27.4%
- Proportion of population underweight: 5.9%

### Hunger Reduction Commitment Index (HRCI)

<table>
<thead>
<tr>
<th>Public spending</th>
<th>Score*</th>
<th>Year</th>
<th>HRCI Rank of 45</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public spending on agriculture as share of total public spending</td>
<td>1.2%</td>
<td>2018</td>
<td>42nd</td>
</tr>
<tr>
<td>Public spending on health as share of total public spending</td>
<td>13.3%</td>
<td>2017</td>
<td>5th</td>
</tr>
</tbody>
</table>

**Policies**

- Access to land (security of tenure) | Strong | 2016 | Joint 11th |
- Access to agricultural research and extension services | Moderate | 2013 | Joint 27th |
- Civil registration system — coverage of live births | 88.6% | 2017 | 9th |
- Functioning of social protection systems | Moderate | 2018 | Joint 2nd |

**Laws**

- Level of constitutional protection of the right to food | Strong | 2016 | Joint 1st |
- Equality of women’s access to agricultural land (property rights) | In Law, not in Practice | 2019 | Joint 3rd |
- Equality of women’s economic rights | In Law, not in Practice | 2019 | Joint 3rd |
- Constitutional right to social security (yes/no) | Yes | 2016 | Joint 1st |

1 Possible scores are: ○ <75% of agri. spending pledges (AU commitments set out in the Maputo Declaration) □ >=75% & <100% ■ >=100%

2 Possible scores are: ○ <75% of health spending pledges (AU commitments set out in the Abuja Declaration) □ >=75% & <100% ■ >=100%

3 Possible scores are: ○ Very Weak/Weak □ Moderate ■ Strong/Very Strong

4 Possible scores are: ○ Not in Law □ In Law Not in Practice ■ In Law & Practice

### Nutrition Commitment Index (NCI)

<table>
<thead>
